

BEER IS BEER DECIDED BY A CHICAGO JUDGE

**Alcoholic Content is Immaterial
Whether One Half or
2.75 Per Cent**

**Does Not Have to be In-
toxicating to Be
Illegal Under War
Prohibition**

Chicago, July 25—Beer is beer, and need not be intoxicating, and so long as it contains as much as one half of one per cent of alcohol, its manufacture or sale is in violation of the war time prohibition act, Federal Judge Page held today. He overruled the demurrer of the Stenson Brewing company, setting forth that the government's information failed to charge that the company's beer was intoxicating.

The company then entered a plea of not guilty. It is expected that when the case goes to trial, the defense will admit it manufactured and sold beer containing one half of one per cent alcoholic content, and the jury will be instructed to find the company guilty. Appeal then would be taken.

The government's victory was regarded as important by the district attorney's office, in that under Judge Page's finding, the burden of proving a beverage intoxicating, and in fact removing the question as to its intoxicating quality, is lifted from the government.

"I am of the opinion that congress, in passing the act of Feb. 24, 1919, had in mind its construction of beer, a malt beverage with the alcoholic content accepted for years by the internal revenue department, and to which the manufacturers of beer never objected," said the judge. "And in the internal revenue acts beer is described, along with other fermented malt beverages, as containing one-half of one per cent, or more, of alcohol."

Consumers Demand Government Action to Bring Down Prices

(By United Press)
Washington, July 26—A demand that the government take "real action to bring down the price of necessities" was voiced by Jessie Haver of the National Consumers League. Sec. Baker is president of this same league. At least 15,000,000 consumers belong to this league according to Miss Haver's statement. Prices have been boosted since the signing of the armistice, government review showed, she said.

Family of Five Suffocated by Fire

(By United Press)
Milwaukee, Wis., July 26—Five members of the family of Mrs. Anna Gump were suffocated by fire early today in their one story home. Two children were saved.

Girl, 8 Months, Can Talk So Quail Answer Her

Philadelphia.—The latest "infant phenomenon" hails from Philadelphia. Her name is Edith Gruenberg. At the age of eight months Edith, from the confines of her cradle, mimicked the call of the quail with such conviction that the bird would answer back. At the age of two she could distinguish all colors of the spectrum. One month later she was discovered in the act of humming Schubert's "Serenade," and at three and one-half years she could recognize 100 popular airs. Three months later Edith's favorite composers were Tschalkowsky, Wagner, Leoncavallo, Handel, Reubenstein, Liszt, Sullivan, Puccini and Beethoven. Edith could pronounce all these names without a slip.

Boiler Explosion on U. S. Ship Melville 5 Dead, 5 Injured

(By United Press)
Colon, Panama, July 26—Reports were received here today that an explosion occurred in the boiler room of the U. S. S. Melville yesterday. There were ten casualties, including five dead and five wounded. The Melville is a naval vessel and has been with the new Pacific fleet. It was stationed at Azores during the flight of naval aeroplanes to Europe.

SUGAR SOLD BY WAR DE- PARTMENT

Board of Equalization Obtains 37,000,000 Pounds From Army Surplus

Washington, July 25—The war department has sold to the United States sugar equalization board 37,000,000 pounds of sugar, it was announced here today by George A. Zabriskie, president of the board who declared there is "abundance" of raw sugar in the country, that retail prices should not exceed 11 cents a pound and that there is no need of hoarding.

Mr. Zabriskie declared that the refiners now are working night and day and that their combined output of 41,750,000 pounds a day is being put into domestic channels of trade. Refiners he said, have not sent a pound of sugar abroad for two weeks. Exportation will not be resumed until American needs are entirely met.

President Hasn't Time to Supply Treaty Information

(By United Press)
Washington, July 26—President Wilson in a letter to Senator Lodge, today said he could not supply the committee with all the information it asked in regard to treaty negotiations at Paris.

The president said he would give the committee any information he had available but that he had no time to go through the papers he brought with him from Paris. He also told Lodge he was not able to supply him with any agreement reached by the allied government in regard to distribution of German indemnities.

Bulgarian Delegates Arrive at Paris

(By United Press)
Paris, July 26—Bulgarian peace delegates arrived here today. The terms of the Bulgarian peace treaty are complete it was understood.

Philanthropist Whose Ambition is to be First Mayor of Jerusalem

Nathan Straus, merchant and philanthropist, who has announced his intention of going to the Holy Land and devoting his fortune and the remainder of his life to the welfare of its population, has another ambition. He wants to be the first mayor of Jerusalem when Palestine becomes the Jewish homeland. Officials of the Zionist organization of America state that 5,000 American Jews are ready to go to Palestine and that the exodus probably will begin about the middle of October.

Mexican Bandits Kidnap American Boy

(By United Press)
Washington, July 26—Philip Thompson, fourteen year old son of John W. Thompson, was kidnapped last Thursday from the Thompson ranch, thirty miles from Mexico City by bandits. The bandits are holding the boy, and will return him for \$50,000. They have threatened to kill him unless the money is furnished.

Round Country Flier Makes New Start

(By United Press)
Augusta, Maine, July 26—Lieut. Col. Hartz, who is making a trip around the rim of the country in a Martin plane, started from here on his second start. Col. Hartz will attempt a non-stop trip.

Foch Recommends Occupation Army of 115,000 Men

(By United Press)
Paris, July 26—Marshall Foch recommended to the council that the allies maintain 115,000 men as an army of occupation in the Rhine district. 6,000 of this number are to be American troops.

STEER ATTACKS COMEDIANSTONE

Cowboys Save Opera Star From Serious Injury by "Bulldogged" Animal

Cheyenne, Wyo., July 25—Fred Stone, well-known comedian and former cowboy, today had a narrow escape from possible death when a steer he had just "bulldogged," turned on him at the annual Frontier Days' celebration. He was saved by cowboys after he had been trampled but not seriously hurt.

"Bulldogging," consists of making a flying leap from the saddle to the shoulders of a steer, seizing it by the horns and twisting its neck until the animal crumbles to the earth. Stone's first attempt resulted in his being thrown over the head of the animal. He tried again and brought the steer down in two minutes, 30 seconds.

Aviator Strike Ends Proceed With Mail

(By United Press)
New York, July 26—The first aviator strike in history was ended today when Pilot Harold Lewis left Mineola, L. I., with the aerial mail for Chicago. There was a delay of four hours because Lewis missed train connections to the field. The first stop was at Bellefonte, Pa., with ten sacks of mail.

House Committee Will Ask Repeal of Canadian Reciprocity

(By United Press)
Washington, July 26—Repeal of the Canadian reciprocity act will be asked by the House of Ways and Means committee, Chairman Fordner of Michigan, stated today.

Democratic Senators Planning Third Term For President Wilson

(By United Press)
Washington, July 26—That democratic senators are planning to make President Wilson a third term delegate was declared today.

Austrian Foreign Minister Resigns

(By United Press)
Basel, Switzerland, July 26—Foreign Minister Bauer, of Austria, has resigned, reports from Vienna said today. Chancellor Renner, head of the Austrian peace delegation, has assumed the responsible position of foreign secretary.

COAL STRIKE IN ENGLAND ENDED

London, July 25—The strike of approximately 250,000 men in the coal mines, that threatened to paralyze many industries, was settled today. The men will return to work at once, it was announced.

The agreement came as a result of conferences yesterday and today by a committee from the miners' federation and Premier Lloyd George, the coal controller and other government officials.

A new piece rate offer was advanced by the government after the miners had charged that the coal controller had not fulfilled the stipulations of the Sankey award, which previously had been accepted by both sides.

The settlement came at a time when the nation's industries, transportation and other public services were threatened with paralysis as a result of the coal shortage.

GERMANS RETURN OVER MILLION TONS OF GOODS

Paris, July 25—Figures given in the course of the sitting of the chamber of deputies by the peace treaty committee show that offices set up in Wiesbaden and Brussels to obtain the return from Germany of stolen goods, have effected the recovery to date of 255,000 and 896,000 tons respectively of material of all kinds.

It was stated, however, that this was but a small proportion of the things taken by the Germans. As an example it was asserted that of 950,000 head of cattle carried off, only 8,000 head had been recovered.

GIVE PEOPLE CHANCE TO BUY SURPLUS ARMY FOOD

Republican Report Favors Immediate Sale of \$120,000,000 in Army Supplies

Washington, July 24—Immediate sale of the \$120,000,000 surplus stock of foodstuffs held by the war department under a plan which will "insure opportunity for the people of the United States to buy" was recommended today by the 19 republican members of the house war investigating committee. The five democratic committeemen withheld decision pending a review of evidence taken by a sub-committee.

"The inactivity of the government in the disposition of these food supplies was, and is, the result of a well defined policy of the secretary of war to withhold them from the domestic market and to protect the interests from which these products had been purchased," said the sub-committee report drafted by Representatives Reavis, Nebraska, and McGregor, New York, republicans.

Chairman Graham of the full committee, was instructed to ask for a special rule on a resolution calling upon the war department to sell the goods. Efforts will be made to bring the resolution before the house next Monday, Graham announced.

The report criticized what it called sale of very large quantities of food supplies now held in storage and asserted that six months elapsed before any surplus stock was declared while in the meantime the food was deteriorating and becoming of less value

New Capital Will Be Utilized in Financing Development of Com- pany's Resources

New York, July 25—The Standard Oil company of New Jersey today announced a proposed increase in its capital stock by \$100,000,000, which virtually doubles the present capitalization. The new stock will be 7 per cent preferred, but nonvoting and will be offered to present shareholders at par.

For Development

The purpose of the issue, which is subject to approval by the shareholders, is to provide for the "vigorous prosecution of the development campaign which the company planned during the war and launched immediately after the armistice was declared."

The new financing will be underwritten by J. P. Morgan & Co., and will constitute the first public offering ever made by any Standard Oil company. In that respect as well as other unusual features the project marks a radical departure in the general financial policy of the world's largest oil producers and refiners.

To Pay 7 Per Cent

The new stock, which will take form of a seven per cent preferred cumulative non-voting certificate, will be listed on the stock exchange. This will be the first Standard Oil security to be openly taken in on the floor of that institution. A detailed statement to the stockholders from A. C. Bedford, chairman of the board summarizes the proposed issue as follows:

"The policy of the company has been to finance its growth from current earnings, but in view of the necessity of the diversion of a considerable proportion of these earnings to excess profits and other war taxes, your directors feel it is advisable to increase the capital employed in its business by the amount of the proposed issue of preferred stock."

and the high cost of living continued."

The report also expressed the "sub-committee's disfavor of a policy of export" and recommended that "plans be devised by the secretary of war, through the war department, for the early disposition of all surplus food production on the domestic market."

The report estimated that on July 3 last, the value of surplus food stored in the United States over and above the needs of the army was as follows:

Corn beef, \$24,000,000; bacon, \$23,000,000; hash corn beef \$10,000,000; roast beef, \$20,500,000; fresh frozen meats and poultry, \$20,000,000; canned vegetables, \$23,000,000.

"Inexcusable delay," the report declared, resulted in the spoiling of millions of pounds of hams and bacon; it being asserted that "Notwithstanding the authorization of surplus by the chief of staff on Nov. 30, 1918, no action was taken with reference to declaring a surplus until May, 1919, six months after the declaration was authorized."

Sales of army foodstuffs in the United States aggregate \$12,000,000, said the report, adding that "A very large quantity of that sold was spoiled and unfit for the general market."

Attack on present plans for sale of surplus stocks was contained in the report, which outlined the plan as providing for sale only to municipalities, which would have 10 days to make payment and bear the transportation cost.

"This plan adopted by the government," declared the report, "will not result in the sale of these products to any great extent for the reason that municipalities under their charter have no legal authority to purchase food products for sale."

Returning Hero of Second Marne Who Refused to Pose Unless Doughboys, "Who Went Through Hell" With Him, Were in Photograph

"I'll pose if you take my men with me in the picture. They went through hell with me and I want them to be photographed with me." This photograph is the result of the foregoing,

spoken by Lieutenant-General Hunter Liggett, "Hero of the Second Marne." It was taken on his arrival in New York after as many as

possible of the 2,000 or more returning doughboys on board the Aquitania had crowded about the general.

Dr. and Mrs. Quist and Mr. and Mrs. Ed Crowley of Minneapolis, members of the State Automobile association, were guests of Mr. and Mrs. L. J. Mraz at luncheon last night. They contemplate finishing their through tour trip to Walker in ample time so as to spend another delightful evening in Brainerd.

See the Liberty Drive Boat Motor at Kings, the Sporting Goods Man. 3716

The dance given at Lum park on Wednesday evening drew a large crowd. Witham's orchestra played a snappy program, and favorable comments were heard on all sides. The personnel of this orchestra is Julius Witham, violin; Richard H. Rehl, saxophone; Miss Edna Drexler, piano; Henry Elvig, trombone; Wm. Tibbitts, drums. This orchestra will not play next Wednesday. In the future the orchestra will give its own dances at Lum Park.

The Sunday evening services in Gregory park are increasingly well attended. There is no question now that worship outdoors appeals to the people. The audience last Sunday evening was large and appreciative. A certain man once wrote, "Lord, Thou hast made us for Thyself and our souls are restless till they find rest in Thee." The truth of that statement can not well be questioned, for no man is quite happy who is not at one with his God. If you feel this, come to the service in Gregory park on Sunday evening and hear an outside speaker who was at one time pastor of the First Baptist church, Rev. C. B. Hilton. If you don't like to worship in the church why not come to the park?

BRAINERD'S ODDEST STORIES OF TODAY

Harry Butler proved a hoodoo of a passenger in his trip to Little Falls. He rode with George D. LaBar and they got a flat tire half way down to the town. He was transferred to the Imgrund car and that got a flat one. They transferred Butler to O. A. Peterson's car and he got a big puncture at Little Falls. It is not known who Butler traveled with on the way back. If it was with John A. Siverson there was more bad luck, for Siverson's car had two roaring inner tubes busted, one a yard long and the other five feet and the last seen of John was where he was dickering with one of the "Red Devil" cars for the loan of enough inside tubing to make home on.

Silk hats, especially when worn in red hot summer days, are unusual in Brainerd. A stranger in town so dressed attracted considerable attention.

One Brainerd man took his wife to Little Falls on the greeting tour. She was considerably put out over the matter as she expected to visit in that town. Instead of that her husband motored to Little Falls, met the Minneapolis party and motored right back again, 64 miles with a 15 minutes stop.

"To settle all quarrels," writes L. R. Tanner from Little Falls, "there were exactly 81 cars in the 'parade.' This includes Brainerd cars, oil tank, wrecker and Ford. I know, as I chewed dust 81 times." The bunch of illuminating statistics is given a place in the "Oddest Stories" and refers to the McGarry-Walker tour.

LESTER E. HITT

Promoted From Night Ticket Agent
to Train Auditor on the
Northern Pacific

Lester E. Hitt, the well known night ticket clerk of the Northern Pacific railway, has been offered and has accepted a position as exchanger or train auditor for the same road with headquarters at Seattle.

Young Hitt is well known in the city. He is the only son of Mr. and Mrs. F. L. Hitt, also of this city. He took his chances with the rest of the young men of this city when the war broke out, and was one of a bunch of young men going from this country to Pennsylvania taking the course at Carnegie Institute in Pittsburgh as an aviator, later going in training as an observer at the Langley flying field. He also has a record as a baseball pitcher, going under the name of "Lefty."

Mr. Hitt leaves for his new field of labor next week and his friends wish him luck and success, congratulating him on his well deserved reward of faithful duty done.

Education Always Helps.

The success of the unlettered man is often argued to show that men do not need education. In special cases the truth may seem to be conclusive, but did you ever stop to inquire what the fellow might have become had he education, added to his natural talents? He has succeeded in spite of a handicap and not because of it.

Youth and Purpose.

It is not youth alone that thinks it "knows it all"—most of us older people could with distinct advantage take our A B's over again. How differently we would map out our lives and how much less censorious we would be of the failures and gaucheries of others! Statistics prove that most of our own suffering and the suffering of the world is the outcome of ignorance, bearing in its wake conceit and stubbornness—a trifling that balks progress in every form.

Education along right lines is our salvation. Then let us be patient and solicitous for the young people all over the land who are weaving bright dreams of purpose—after commencement.—New York Evening Telegram.

When Korea Was Great.

History for many years B. C. tells us that the people of Korea were among the highest in genuine civilization. About the year 1597 a general by the name of Li built the first iron fleet, composed of wooden circular vessels with iron plates on top, studded with sharp iron teeth. Because of the prosperity of the Korean nation, Japan was extremely jealous, and had therefore brought 700 boats in battle array. However, Li, with his 50 boats, succeeded in inflicting a disastrous defeat upon the Japanese, who have never forgotten that well-deserved lesson given to them by a highly cultivated, happy and prosperous people.

Miss Norma shook off the second swimmer and brought Miss Bame a hundred feet to shore where she was revived.

GEORGIA DOWNS SUFFRAGE

Senate and House Decisively Defeat Ratification

Atlanta, Ga., July 24.—Ratification of the Federal suffrage amendment failed so far as the present session of the Georgia legislature is concerned today when the senate voted against ratification, 39 to 10, and the house took similar action by a vote of 132 to 24.

Algrim-Mystrom

David Victor Mystrom and Miss Louise M. Algrim were married on Saturday morning at the office of the district court clerk at the court house, Rev. Fred Errington, pastor of the First Congregational church, officiating. It was an informal service, friends acting as witnesses.

Tennessee-Elmer

William John Elmer and Miss Tillie A. Tennessee, both of Deerwood were united in marriage at the parsonage of the First Methodist church in Brainerd, Rev. E. A. Cooke officiating. The ceremony took place on Thursday afternoon at 3 o'clock. Mr. Elmer is now in the employ of the N. P. railway company at Zimmerman. Their many friends join in wishing them a happy journey through life.

TREES FOR THE ROADSIDE

Western Journal Advocates the Planting of Apple and Various Other Kinds of Fruits.

The example of a Minnesota village which is planting rows of apple trees along its roadides instead of the more conventional Lombardy poplars, Norway maples, box elders and white elms, is capable of adoption to almost every American community. The practice, like a good many others which now commend themselves to favor, is the result of individual initiative. About 20 years ago, it seems, a retired minister introduced fruit trees to the roadway running through his own property. The school district, seeing their value, has now arranged for planting 250 more apple trees of an approved variety and has committed itself to care for them. These are theoretically the property of the lot owner, but it is a safe guess that the public will harvest a good deal of the crop.

It is nevertheless a pleasing custom, and one which is not likely to interfere seriously with the commercial side of fruit growing. The spring months must be particularly beautiful in this part of Minnesota, to say nothing of the annually recurring harvest festival every autumn. One would not begrudge the passer-by his share of the ripe pomes, and it is practically certain that the privilege would not be greatly abused if planting of this kind were general. The experience of orchardists in such regions, for illustration, as the great prune-growing belts of Oregon and Washington shows that when certain fruits become reasonably common loss from pilfering is negligible. But part of the value of the roadside tree would be the tacit invitation to share in the product thereof.—Portland Oregonian.

ONLY FEW COLORS

Women Must Use Shades That Are Picked for Them.

Wearers of Garments Have Little or No Chance to Exercise Own Taste, Says Writer.

Launching a new color nowadays is attended with as much ceremony as the launching of a battleship. Amy E. Hogeboom writes in the New York Herald. Not that there is such a thing as a new color, nor that colors are scarce. Neither has it anything to do with the dye situation, but the fact is that the manufacturers assemble each season and decide to allow certain shades to be placed on the market at that season. If you should wish for any shade which they have decided is not to be you may as well give up in the beginning. This does not happen as often as it might were the majority of the well-dressed women not cleverly cajoled into wanting the shade that the manufacturers have decided they shall want.

Allowing only a few colors out of the bag at one time has its advantages, for when the popularity of one has worn off a bit there are plenty of others left from which to select the next one for the center of the stage. The disadvantage is that as far as the woman herself is concerned she has little or no opportunity to exercise her own taste; she is almost as helpless in the matter as she would be had she no color sense at all. She may find a dressmaker willing to cut her gown somewhat as she wishes or a tailor who may humor her in a like manner, but unless she has special dyeing done for her she must select from the colors set before her.

Last fall some one hit upon a shade which he called henna as an especial attraction. It might have been inspired by some canon of art or it might have been suggested by the Russian dressing of the business man's luncheon, but the women wore it, and that is all they had to say about it. For the greater part the women are willing sheep in matters of dress, be it color or line, and if not naturally thus inclined they show good sense not to try to stray too far away. Having purchased one article in a color not approved by the color censor, for really we have censors for everything nowadays, it will be found impossible to match the color in anything else and an utterly hopeless task.

ONE NEW BATHING COSTUME

A stunning bathing costume on new lines with the knee-fitting breeches which are the very latest thing. A quite elaborate hat is worn to match the suit.

Practical and Smart.

If one must wear furs in midsummer—and it has been proved how practical they are aside from their undisputed smartness—it is by far the best plan to have a distinctly different set of summer peltry and send all the winter furs to cold storage for the hot spell. Furs are like plants; they have to rest once in a while between seasons of blooming out in beauty, and the fur neckpiece or coat that was worn month in and month out with no period of recuperation would soon become shabby and lifeless looking.

S. A. HOME FOR WORKING GIRLS SOLVES H. C. OF L.

Demonstrates That Women Can Be Well Fed and Housed on From \$3.50 to \$7.50 Per Week.

HOTEL MEN SUBPRISED

Marvel At Economy of Management And Superior Service Given At Low Cost.

A STUDY IN BOARDING HOUSE ECONOMY

Salvation Army proves healthy American working girls can be well fed, housed and contented on from \$3.50 to \$7.50 a week. Figures from 1918 report of Chicago Young Women's Boarding Home showing what it costs per girl to do this: Average number of guests.....136 Average cost per girl per week \$6.37 Cost Per Girl Per Week, Partially Itemized

	1918	1914-15
Groceries	\$2.00	\$1.19
Meat47	.41
Laundry155	.11
Light and heat54	.38

And the food is well cooked, wholesome and fresh, the rooms airy, light and well cleaned.

In an old Chicago club house that seems to breathe hospitality is a boarding home for working girls that has solved the problem of the high cost of living. One can almost see the latch string hanging at its front door and the lobby of grained and carved oak with its huge fire place and big comfortable chairs speaks welcome to all who enter. A Salvation Army matron greets all who come in.

In the evening merry voices, some a bit tired, ring through the home. It is a true sorority for it is founded on faith, unselfishness and happiness. On the second and third floors are the living rooms which are large, airy and immaculately clean. Through the wide windows can be seen vistas of trees for a small park lies at its door. In many of the rooms there are at least three snowy white beds and three dressers. There are cushioned chairs, study tables, student lamps and magazines making home rooms for serious minded young American women.

On the main floor off the lobby is a large dining room which once was a huge grill. Long tables are placed near the windows and each is decked with a clean linen cloth, napkins in rings, heaping plates of bread and butter, pitchers of milk, and plates of relishes and salad. Flowers grace the center of each table—not expensive blossoms but fresh and bright. In this dining room are served three meals a day. The menus are not pretentious but the food is most appetizing.

REVIVE RITES OF DRUIDS

Many Welshmen Take Part in Ancient Ceremonies in Pittsburgh Park.

Pittsburgh, Pa.—Ancient Druidic rites were revived at the annual convocation of the American Gorsedd here. The ceremonies took place in Schenley park. More than 2,000 Welshmen from all parts of the country and a number from foreign countries were present.

Rev. William Surdial of Middlepoint, O., the American Archdruid, conducted the ceremonies. In the midst of a circle composed of uneven pillars the archdruid stood on the Logan stone. In front of the uneven pillars an officer was stationed. All the officers appeared in the old Druidic robes and the accompaniment to all musical selections was by harpist. The principal feature of the ceremonies was the unseathing of the sword, an ancient custom which has been traced back to 1,700 years before the Christian era.

Among the more prominent guests of honor were Hon. James T. Thomas, member of English parliament and leader of the labor party in Great Britain, and Sir Joseph Davies, also a member of parliament and former secretary to Lloyd George.

Breakfast is the only meal at which coffee is served for every item of cost is carefully and scientifically figured out. Coffee is too expensive for service at each meal so are high priced meats and only certain kinds of vegetables can be afforded. Good cooking makes the difference. Purchasing in large quantities cuts down the expense. Meats that can be used either hot or cold are chosen. Vegetable that are appetizing when they appear as steaming side dishes and good when served as salads are the only kind that are selected but there are a many of them that there is no lack of variety.

It costs but \$6.37 per week per girl for The Salvation Army to run it home. The cost is the same whether the girl pays \$4.50 or \$7.50 yet the home is not losing money. The Salvation Army has a way of facing financial problems without working hardships on any but its own members. No one knows just how it does this but it does. It is almost impossible to cut its expenses for its own head is lower than that of any similar organization the world over. If it raises prices its dependents suffer, its charges always remain the same. Who does suffer? The Salvation Army officers refuse to acknowledge that they do.

Those in charge of the Chicago home faced this situation in the spring of 1919 when the budget for the coming year showed an estimated cost of \$7.00 per girl. Something had to be done. Every item of expense was scrutinized. Meats were bought in large quantities so were vegetables, milk and general supplies. They were carefully bought. No New England housewife ever did better shopping. The Salvation Army did not raise its charges and an analysis of the actual costs tells the story. It is economy and management nothing else unless self sacrifice is considered and self sacrifice is so common among the members of the organization that it is generally overlooked.

The following tabulation which was taken from the Chicago boarding home reports of 1918 and 1919, tell the story of both economy and sacrifice:

The average number of guests in the home during 1918 was.....136 Employees 19, Officers in charge 3, 2

COSTS ITEMIZED

In averaging the cost per girl per week the number of guests only (136) not employees or officers is considered

Items of Expenditure	Total Cost	1918	1919	1917
Salaries of 3 off. and 19 emp.	\$ 8,010.92	\$113	\$ 99	
Groceries	14,128.62	2.09	1.11	
Meat	3,319.53	.47	.41	
Laundry	1,105.33	.155	.11	
Electric Light	858.15	.12	.10	
Gas	594.66	.043	.05	
Coal	2,674.43	.38	.25	
Water	189.37	.025	.02	
Interior repairs	456.05	.065	.07	
Renewals of equipment .	2,269.23	.33	.07	
Telephone (Inc. postage, printing, express, etc.)	192.27	.025	.02	
Sundries	485.08	.07	.17	

Total and weekly cost exc. of rent \$33,293.63 \$4,803 \$3.45 Rent—Property payments, etc., 11,180.27 1.57 2.02 Total cost and charge to guest\$45,173.90 \$6,373 \$5.47

Hotel keepers have marveled at these figures and have spent hours studying them. The result is always the same—"We buy as cheaply, we cook as economically but we can't get help for so little."

They tell the truth. It is no easy task, that of being a member of The Salvation Army. Salary must be forgotten and in its place comes the compensation of working for humanity. There are nineteen of them working in the Chicago home and the average pay is \$60 a year—less than a dollar a day. Is it any wonder that private institutions cannot compete?

PLAY PARKS TO FOLLOW WAR

Splendid Idea Which Has Arisen in Canada Might Well Be Emulated in This Country.

Play parks for children, which will stand for all time as peace memorials, will be established in all the principal cities of Canada if plans of the Ottawa Horticultural society, supported by the Ottawa playgrounds association, are carried out.

The purpose of the parks will be: "To help make impossible for coming generations the reality of another war; to hold up for emulation for all time that spirit of unselfishness which stirred those of this generation and enabled them to secure for mankind the advantages of peace; and to encourage all those who enjoy the first fruits of peace to dedicate to the ideals of civilization a memorial which shall have the significance of a guaranty that life in the future shall have a fuller measure of joys and rewards."

The parks, according to plans, will enable children to enjoy summer and winter sports and recreations. They will be centers for holding annual peace celebrations. In them some memorial will be erected—a tablet, perhaps—on which will be recorded each year some of the dominant benefits peace has conferred upon the world.

MEET AND TREAT AT OUR FOUNTAIN

WHITLOCK MAY BE SUCCESSOR TO PAGE

AMBASSADOR TO ITALY RETURNS AND HAS CONFERENCES WITH THE PRESIDENT.

JUSSERANDS ALSO ARE BACK

Rumor That the Veteran and Popular Representative of France in Washington Intends to Resign His Position—Capital Hopes It Is False.

By EDWARD B. CLARK.

Washington.—The ambassadors are returning to town. This sounds like the beginning of an old nursery rhyme, but while there is considerable "dark, lurking," the substance of the rest of the old rhyme is not in evidence.

Thomas Nelson Page, ambassador of the United States to Italy, arrived here recently. He has had many close talks with the president concerning the situation in the land from which he has just come. Despite troubles over Rome questions, Mr. Page is said to have declared that Italy likes the United States above all other nations.

Rumor has it at this writing that Brand Whitlock, minister of the United States to Belgium, will be appointed to succeed Mr. Page as ambassador to Italy. His Belgian career is too well known to need comment. Brand Whitlock, by the way, used to be a reporter on a Chicago morning paper, and he was a good one, too. He did everything from night police to politics. After having made good in these fields he went to Toledo, where he was elected mayor and where he wrote two or three successful books. The French ambassador, Jules J. Jusserand, with Mme. Jusserand, has just returned to the United States. The ambassador and his wife went to France with the president and Mrs. Wilson. It is the custom for the ambassador of a country to accompany the ruler or the president of the company to which he is accredited when that ruler or president pays a visit to the land which the ambassador represents.

M. Jusserand May Resign.

There has been a rumor that it is the intention of Ambassador Jusserand to resign his position after nearly 17 years of consecutive work in this country and to return to his native land. All of Washington hopes that there is no truth in this reported intention. Jusserand is the most popular ambassador ever to have served in Washington.

Several officers of the United States army and several civilian government officials were called to the French embassy a day or two ago to be presented with the insignia of one of the other of the several decorations of the Legion of Honor of France. The ceremony was an impressive one and it was followed later in the day by a reception which was attended by the president and the vice president of the United States, and by scores of the ranking officials of the armed services and of the government departments.

In a way Ambassador Jusserand might be called an American, for his love for this country has been marked from his early youth. He has made a study of its institutions and he has made many addresses and has written several books on American men and affairs.

Never Lost Courage and Faith.

During the days of the war I was an occasional caller at the French embassy. In those dark hours when the Germans were approaching Paris the high courage of Ambassador Jusserand never failed, and neither was there failure of his implicit faith that all would be well in the end, though the end might be far distant. The entrance of the United States into the war was hailed by this ambassador of France as being eternally fitting. He had felt from the first that as French troops once had come to America in the cause of liberty, American troops one day would go to France in behalf of the same holy cause.

Prior to the recent return of Ambassador and Mme. Jusserand to this country they went to the camps of

Brainerd Minnesota

The American army of occupation in Germany. There the ambassador saw the fulfillment of his hopes. He looked at the great fortress of Coblenz and over it he saw floating the Stars and Stripes. Quickly he turned to his wife and said: "Oh say, can you see?"

No one in Washington knows definitely just when the empty embassies of the countries with which the United States has been at war again will claim occupants. The German embassy on Massachusetts avenue has been barred and closed ever since Von Bernstorff of despised memory left this town. He had intrigued not only in behalf of his own country but against the welfare of the land which was his host. He had violated every canon of hospitality.

Rumor has connected the names of several prominent German officials with the appointment to office in this country in the day when such appointments will be proper. It is certain that the state department officials will carefully study the history of the appointee before declaration will be made that he is acceptable.

The Austrian embassy is still vacant. The man who comes will not be of the type of Dumba, although perhaps the latter was more weak than wicked.

Prize Mixer.

"A good mixer, isn't he?" "You betcha," replied a citizen of Grudge. "He can tell more funny stories, borrow more money, pay less of it back, get more signers to petitions, be elected to more lodge offices and do less honest work than any other three men in town."—Judge.

Her Last Social Function.

My small son on coming home from school one noon said to me: "Mother, I'm going over to Bundy's home this afternoon." On my asking what he was going for he replied: "Why, don't you know his grandma is having her funeral this afternoon?"—Chicago Tribune.

Veils Add Daintiness.

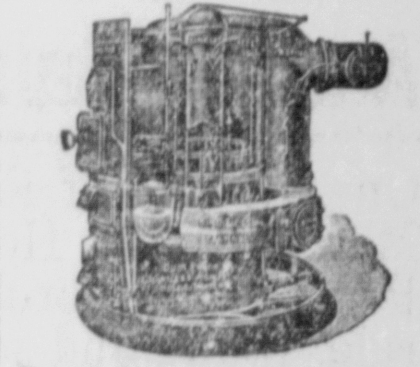

The woman who is trim from top to toe never forgets that a veil is the last touch in daintiness for any outdoor costume. This year she is wearing one of the big-meshed veils that seem to be the fad; but just because veil meshes are so big fashion has whimsically introduced tiny meshed patterns that are scattered over the veil in an effect of contrast.

THINK HIGHLY OF LANTERNS

Chinese Make Them in Many Attractive Forms, and Pay Big Prices for Them.

The shops of the lantern venders in the Chinese cities are usually very gay and attractive. All varieties of lanterns are to be seen—the large silken ones 3 and 4 feet high, gorgeously painted with variegated colors, embroidered in gold and silver or decorated with deep fringe of the same material, and common small horn and paper lanterns used by the coolies, according to the Philadelphia Inquirer. The mode of making horn lanterns is very ingenious; the horns are cut into remarkably thin slices, which, by means of heat and pressure, are joined together and formed into various shapes—round, square, hexagon, octagon and some shaped to resemble an hour glass.

It is usual for servants after sunset to carry before their masters large lanterns made either of horn or highly varnished paper, with the name, title and dignities painted in large letters thereon.

At the Feast of Lanterns, which takes place in the early part of the Chinese New Year, these lantern shop proprietors reap a rich harvest, as it is customary for parents to make presents of lanterns to their children, brother to sister, friend to friend, inferior to superior, and vice versa.

The Biggest Mummy.

The largest mummy in the world is that of an animal, the Beresovka mammoth, in the Petrograd museum. The species has been extinct for thousands of years, and the Beresovka mammoth—which was found embedded in the frozen earth near the Beresovka river, in northeast Siberia—probably lived fifty thousand years ago.

First Chief Justice.

John Jay was the first to hold the office of chief justice of the United States and received his appointment in 1789. He was born in New York, December 12, 1745. John Rutledge was nominated by the president and was the second chief justice of the United States. He was born in South Carolina in 1739.

SPECIAL HONOR FOR GENERAL PERSHING

ITS NATURE UNDECIDED AND A FLURRY OF POLITICS RISES IN THE HOUSE.

"THANKS OF CONGRESS" SURE

Commander-in-Chief of Expeditionary Forces and Other Generals Will Receive This Distinction, Which Carries Certain Privileges With It.

By EDWARD B. CLARK.

Washington.—It is the apparent intention of congress to honor Gen. John J. Pershing in a particularly personal way when he shall arrive in this country. At this writing it is undecided as to just what form the honoring ceremony shall take, but in all probability the two houses of congress will meet in joint session in the representatives' chamber and invite General Pershing to be the guest of the combined bodies.

There was a flurry of politics in the first proposal to honor General Pershing by means of the joint session which he was to be invited to attend. The Republicans are in the majority in both branches, but it was a Democrat who made the first proposal. It was his endeavor to secure recognition from the speaker in order to introduce a resolution to carry out its plan, but the required recognition was not forthcoming because the speaker desired to refer the matter to the house committee on rules in order to have the matter given consideration. Now it is being charged that politics entered into the matter because of the desire of each party to be first to propose the honoring of the man who commanded the American expeditionary forces.

It is difficult to bring any matter of high national import before congress with entire freedom from the charge of somebody or other that an attempt is being made to secure political advantage. Of course there are always deals from both Democrats and Republicans that such is the intention.

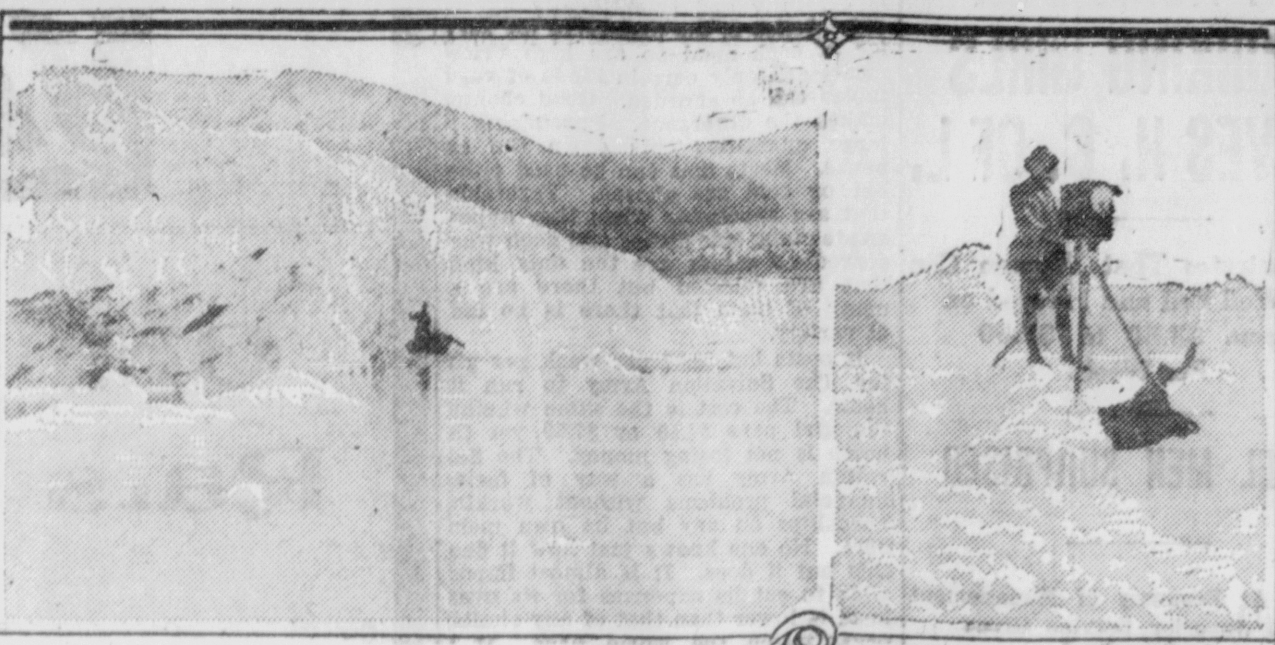

Will Receive Thanks of Congress.

It is probable that the congress of the United States will vote its thanks to John J. Pershing, and to some other generals of the American expeditionary forces, for their services to the country in the great war. It is probable also that Rear Admiral William S. Sims, commander of the American naval forces abroad during the war, and one or two other high officers of the naval service likewise will be honored with the thanks of congress.

There are five men, all of them connected either with the army or the navy forces of the United States, living today who have been honored in the way that it is the unquestioned intention to honor Pershing, Sims and the others. To receive the thanks of congress is accounted the highest honor which any official of the American government can receive. The recipient enjoys certain privileges thereafter, and occasionally coupled with the vote of thanks there are special provisions for additional privileges.

The living men who already have been given the thanks of congress are Maj. Gen. George W. Goethals, the great administrator of the work of building the Panama canal; Maj. Gen. William L. Sibert, who built the Gatun dam, locks and spillway; Maj. Gen. William C. Clegg, the great sanitary

LIVING AND DEAD TAKU GLACIERS THRILL ALASKA TRAVELLERS

The Emerald Berg, Taku Inlet ■■■ Taking Movies of the Birth of Bergs ■

Taku Inlet, Alaska, 900 miles north of Vancouver and 400 miles south of Juneau, capital of Alaska, is unique in that it can be visited by all the coast steamers and because it is the only place in the world where a dead and a living glacier of any magnitude can be compared side by side. The dead glacier is on the left when steaming up the inlet, and, according to Indian tradition, has not moved for over 200 years. In that time, however, it has actually receded about 1½ miles. Its length is estimated at 60 miles, width about two miles, depth of its face about 250 feet.

The live Taku Glacier lies a mile and a half from the dead one. It is 1½ miles wide, 300 feet high, from the water level to the apex of its pinnacled face, and about 80 miles long. Its movement varies somewhat, but it moves on an average about ten feet a day into this arm of the Pacific. Where the wall of ice leaves the rock channel forming the shore line, the mighty walls break and give birth to icebergs which at times are more than half a million tons in weight, with a roar which can be heard for many miles. A terrific crashing and grinding is heard continually.

The face of the glacier when exposed to the sun for any considerable time turns to dead white. When the

walls break, most wonderful colors flash in the sunlight and the face of the glacier looks like majestic turreted architecture. The serrated crags of the ice wall form an amazing variety of contours and the person gazing upon its face can readily imagine domes, mosques, spires, castellated battlements, minarets, colonnades—in fact every form of architecture—all fashioned by the hand of Mother Nature out of soft ice and gleaming and scintillating as though studded with innumerable jewels.

It is a sight which once seen can never be forgotten and it is one of those stupendous forces of nature which must make even the greatest egotist realize what a perfect pygmy he is in the eternal scheme of things.

Use for Electric Fan in Closet.

An electric fan has not fulfilled all its obligations when it has cooled your house. Set it revolving in a dark, airless closet; it will bring in its wake ventilation, if the door is left open during the process. In addition it will dispossess the moths.

So It Goes.

The Lowry City Independent has an idea that the old fellow who became rich by burning the midnight oil doubtless now has a son who is prodigal with the midnight gas.—Kansas City Times.

Strong Family Resemblance.

"Contentment," remarked Slimbena, "am a mighty fine thing; do only trouble 'bout it is it's kin' o' hand to 'stingish from jes' plain laziness."—Boston Transcript.

Truly a Big Mistake.

"A man dat's ailing in trouble," said Uncle Eben, "is mighty liable to make de tremendous mistake of bein' proud of de fact."

Daily Thought.

All things are in fate, yet all things are not decreed by fate.—Plato.

Deacon Dobson

DON'T TAKE A CHANCE
 There is no luck about gardening; it's knowing how, and so writing to the National War Garden Commission, at Washington, for a free garden book. Send two-cent stamp for postage.

Study in Strength.

The muscles have their periods of development and decline. The lifting power of a youth of seventeen is 280 pounds; in his twentieth year this increases to 320 pounds, and in the thirtieth year it reaches 365 pounds. By the fortieth year it has decreased eight pounds; at fifty the figure is 330 pounds.

Chinese Love Horses.

China is one of the last of the nations of the world to adopt and enjoy the motorcar. Indeed, the conservative Chinese shrink from anything that seems to cast any aspersion upon horses, for equines have played a big part in tradition, history and the life of that mysterious land in the far East.

Advantage of Travel.

Travel is a great educator and we noticed in the conversation at luncheon yesterday that a little dab of warmed-over codfish, pieced out with one egg to make it somewhere near enough, had become casserolette of Newfoundland cod aux oeufs.—Ohio State Journal.

Deacon Dobson

UP FROM THE SOIL
 Lincoln knew its value, says the National War Garden Commission, of Washington, so plant a garden.

Abe Lincoln was a farmer good, who did th' chores and chopped th' wood; he spaded up th' garden spot, and planted seeds when sun was hot. He learned th' lesson there o' thrift, and though he wasn't very swift, he plodded on from day to day, and made his little garden pay. We all admire old Honest Abe, who started life with hoe and spade, and made th' character, by gee, that helped him mold our destiny. No greater burdens e'er were borne, than his when this old land was torn, by shot and shell and civil strife that gripped th' nation's very life. But through it all he led th' way, determined that th' right should sway, th' minds o' men till all should see, th' negro set from slavery free. His sterling wealth o' heart and soul, our press and pulpit extol, and in th' schools our children sing, th' praises of our uncrowned king. As days and years shall come and go with summer heat and winter snow, they'll find us ever, prone to tell, of him who served his country well. And generations yet to come, will chant th' praise as we have done and tell o' this man's magic charm, who started on th' bumble farm.

AMUSEMENTS

At the Best Monday
 Playing three distinct roles in her latest Artercraft picture, "The Avalanche," beautiful Elsie Ferguson will be seen to excellent advantage in this excellent picturization by Ouida Bergere of Garrude Atherton's latest novel which will be displayed with all needful accessories and music at the Best theatre next Monday.

Under the direction of George Fitzmaurice, the scenes in which Miss Ferguson appears simultaneously as Mme. Delano, keeper of a fashionable gambling house, and Helene, her daughter, have been handled most artistically. Double exposures were necessary to show Miss Ferguson simultaneously as mother and daughter, but the illusion is most perfect and at times exceptionally effective.

At the Best Tuesday
 The weapons by which Ethel Clayton wins her husband back in "Women's Weapons," the new picture in which she is starred, which is to be shown at the Best theatre next Tuesday, are not the same as those employed to win her screen following, and yet in a sense they are the same. They are, after all, the weapons with which Eroq attacks his victims; the lure of sweetness, womanly charm.

Miss Clayton is exquisite in this role of the true wife, while Vera Doria does wonderful work as the siren. Elliott Dexter is the husband, and as usual is debonnaire, suave and genteely convincing. Robert Vignola directed the photoplay.

RESEMBLES OLD LOG CABIN

Remarkably Pretty Bungalow Fashioned From Concrete, the Modern Building Material.

American pioneers have handed down an affectionate regard for log architecture, and many a city dweller would prefer a plain log cabin to a modern mansion for his country home. A builder in Yankton, S. D., has combined both in a pretty and homelike bungalow whose "logs" are made of concrete. The loglike units are precast separately, flat on top, bottom and inside, but with the outside surface molded round and with an imitation

In This Pretty Bungalow the "Logs" Are Precast Concrete Units, Laid Up With Mortar, Like Any Masonry, and Stained Wood-Brown on the Outside to Look Natural.

bark finish. Ends are cast with dovetails, and interlock at the corners. Ordinary mortar joints are used, and the exterior is finished to a natural effect with a wood-brown stain, preserving in form all the esthetic value of the rustic model, but with the cleanliness and sanitary value of the modern material.—Popular Mechanics Magazine.

Proper Housing Means Much.

In England the principal original investors in a garden city development are not concerned solely with the financial profit obtainable from the venture. The basis of income return is sufficient to remove any suspicion of charity from the transaction, while it is at the same time recognized by all the investors—including in part, of course, those manufacturing concerns which may have a certain amount of selfish interest in the matter—that the contented and more efficient workmen thus obtained represent a better return than a few per cent additional on their investment. From a larger point of view it is also apparent that the healthier generations that will result from workmen living under these better conditions mean greater power, wealth and efficiency to the whole nation.

Daily Thought.

Words and feathers the wind carries away.—Herbert.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills for constipation

Velocity of Stars.

From the spectroscopic measurements made at Mt. Wilson observatory stars (i. e., the speed with which they are approaching or receding from our solar system), it appears that the star A. G. Berlin has a radial velocity of 339 kilometers a second, the highest constant velocity so far observed for any star. Next to this comes Lelande, with a velocity of 325 kilometers a second, in the opposite direction.

Chinese Dietary.

Chinese cooking has for its general basis chicken broth or poultry jelly and red sauce. The latter accompanies nearly all the dishes; it is a kind of dissolved meat jelly flavored with pimento and coriander. Pork and mutton are almost exclusively eaten; horse and camel meat, however, may be bought. The number of edible dogs eaten annually in China is estimated at 5,000,000.

Edinburgh Landmark Gone.

An interesting bit of old Edinburgh, dating back about 1600, has been bur-

ROAD BUILDING

BENEFITS OF COUNTRY ROADS

Among Other Things They Cheapen Cost of Transportation of Farm Products to Market.

Good roads promote self-respect in a community. They make possible social intercourse. They bring the benefits of churches and schools within the reach of all. They help to keep the boys on the farm. They cheapen the cost of transportation of farm products to the markets and thus add to the farm profits. They add to the value of farm lands much more than they cost. They mark the degree of civilization of the rural community. This, in short, is the value of good roads as seen by the extension service of the University of Missouri College of Agriculture.

The building of good roads is of the greatest importance to a community.

What kind of a road should be built? Of what should it be constructed?

FOR SALE—Ice chest. Inquire 516 Oak St. N. E. 6952-4216

Good Roads Like This Bring Farmer Nearer to City Markets.

What are the things to be considered in locating the road? What "grade" should be maintained? How should the road be drained? What are the laws governing highway construction? There are a few questions answered in extension circular 68 dealing with country roads.

Matters of prime consideration in locating a road are: Easy grades, good drainage, exposure to sunshine, elimination of culverts and bridges by avoiding unnecessary creek crossings, directness and the number of farms to be served for a given length of road. Whenever possible to avoid it, a good location should not be rejected merely because a certain roadway has been in use for some time. If the location of a used road is bad it should be changed if possible. In relocating roads avoid railroad crossings at grades.

The grade of the road is important for on this depends the weight of the load which can be hauled economically. By grade is meant the rise or fall in feet for each 100 feet in horizontal length of road, usually expressed in percentage. A 5 per cent grade means that the road rises or falls 5 feet each 100 feet along its center line. It has been calculated that on a smooth country road the load that one horse could pull on a level would require two on a 5 per cent grade, three on a 10 per cent grade and four on a 15 per cent grade. Engineers usually figure a 6 per cent grade as a maximum.

Road work in Missouri has not been as well managed as other public work. Projects have been too narrowly limited to localities, resulting in fragmentary effort. Skilled locating and supervision of construction have been generally lacking. The remedies are: First, a wider co-operation and the adoption of broad schemes of improvement, preferably with units no smaller than counties. Second, the absolute elimination of political considerations in the spending of money. Third, securing good engineering advice in the preparation of plans and requiring careful engineering supervision of construction.

ENGLAND SPENDS 50 MILLION

Grants to That Amount Will Be Distributed for Reconstruction of Roads and Bridges.

Grants amounting to \$50,000,000 will be distributed by the British road board for the reconstruction of roads and bridges in England in 1919. Demobilized army units will be used to do the labor. Local highway authorities will be required to match this appropriation by at least as large a program of road work as they carried out in the year before the war. Area taken into consideration, England's program is thus far in excess of that of the United States, including both federal aid and state funds.

POOR ROADS ARE EXPENSIVE

Congressional Report Places Annual Loss at \$504,000,000 for Transportation Alone.

The congressional report of 1914 placed the economic loss of the United States through poor roads at an annual figure of \$504,000,000 for transportation costs alone. The heavy increase in tonnage since that time probably makes the loss today close to \$1,000,000,000.

WASHINGTON STILL IS OVERCROWDED

MEMBERS OF THE NEW CONGRESS HAVE DIFFICULTY IN FINDING PLACES TO LIVE.

WINTER RESIDENTS SELFISH

Insisted on Remaining Through Bad Weather Though Necessary War Workers Were Walking the Streets Hunting for Rooms.

By EDWARD B. CLARK.

Washington—Washington is still full of people, war workers, peace workers, and, unhappily, it must be said, too many people who are just hangers on. Members of the new congress are being confronted with the hard task of finding places to live.

The Capital City has lost some thousands of its temporary inhabitants within the last month or two, but still the place is filled to overflowing. The wonder is where all of the people were packed. It is true that the government put up dormitories for many of its workers, and it is just as true that some of the workers lived two and three in a room when the press was on, but the exodus seems to have made comparatively little difference in the "To Let" situation.

One result of this is, of course, that the rooms are not so crowded as they were, but if each room now has only one, or at the most, two persons in it, and no more are to be admitted into the individual room, there are no more accommodations for the surplus now than there were in the day of the extra crowding. Newly elected representatives and senators are searching for houses and apartments. They are having their troubles, although perhaps they can get what they want if they are willing to pay for it and paying for it in this day means something.

Apartment Used as Office.

The government took over in the press of war times a considerable number of apartment buildings, turning them temporarily into office structures. Many of them still are so occupied. This seizure, if that is the proper word to use, meant that a good many families were compelled to seek new quarters and found themselves jostling with newcomers to Washington in the race to find places to live. To make the conditions worse, the old-time winter residents of the Capital City insisted on coming back. They belong to the leisure classes and there was no reason why they should live in Washington in winter than in New York, or in Chicago, or in St. Louis, or in Atlanta, Ga., but back they would come.

Home Town Helps

JUDGE CITY BY ITS STREETS

Importance of Well Laid Out and Properly Kept Thoroughfares Cannot Be Overestimated.

Streets are the lines of expression on a city's face. They are the ideographs of time, recording the thoughts, passions, impulses of the city-soul that dwell within. They are as surely the indices of a city's character as the lines on a human face, a betrayal of whatever is ugly and sordid, an earnest of whatever is serene and gentle and strong.

"There are mean streets," says Balzac, "and streets that are merely honest; there are young streets about whose morality the public has not yet formed any opinion; there are murderous streets—streets older than the oldest hags; streets that we may esteem—clean streets, workaday streets and commercial streets. Some streets begin well and end badly."

In a city where the trees have been discarded to promote convenience and advantages of commercial thoroughfares there are just such streets which distort and mar its beauty. It is a custom with us here in America, with the encroachment of business upon a residential district, tree-lined, shady and inviting to invade with vandals hand and fell the trees. Planting signs may then be suspended over the pavement to arrest the attention of the passerby; display windows may be viewed from either side of the thoroughfare. There is an irreverence in such practice; beauty and charm have been turned to the uses of barrier and trade.

Memory Must Be Cultivated.

In any system of mental development, the memory must be cultivated at the outset, and that cultivation must continue unceasingly. It is fortunate indeed that every average person has a mind capable of excellent memory. It is only necessary that the native powers should be properly employed.

New Burglar Alarm.

A burglar should have a hard time to "get by" the new alarm which is recommended as simple and inexpensive. It makes a noise, turns on a light, and registers the time of the burglar's attempt, as well as delaying and preventing its success.

MY HEAD!

When the head feels thick or aches, when one feels all out-of-sorts—perhaps a coated tongue—it is the signal that poisons are accumulating in the system, and should be cleaned out at once.

Auto-intoxication can be best ascribed to our own neglect or carelessness. When the organs fail in the discharge of their duties, the putrefactive germs set in and generate toxins—actual poisons, which fill one's own body.

Sleepiness after meals, flushing of the face, extreme lassitude, biliousness, dizziness, sick headache, acidity of the stomach, heartburn, offensive breath, anemia, loss of weight and muscular power, decrease of vitality or lowering of resistance to infectious diseases, disturbance of the eye, dyspepsia, indigestion, gastritis, many forms of catarrh, asthma, ear affections and allied ailments result from auto-intoxication or self-poisoning.

Take castor oil, or procure at the drug store, a pleasant vegetable laxative, called Dr. Pierce's Pleasant Pellets, composed of May-apple, aloes and jalap.

MONTANA BANK HAS NEW CASHIER

The appointment of Mr. C. A. Clark as cashier of the First National Bank, Lambert, Mont., is of special interest. The young man graduated into the place immediately upon finishing a course at Dakota Business College, N. D.

Another Montana man, Mr. S. C. Sparks, had a similar experience recently, securing a position as asset, cashier of a new bank at Fallon, Mont. upon completing his D. B. C. course. Scores of northern bank officials are former D. B. C. students. For information about summer courses, address F. L. Watkins, 806 Front St., Fargo, N. D.

DISPATCH ADS BRING RESULTS

THE COMFORTS of the American Home

It is a well-known fact that, home for home, the American household has more comforts and conveniences than that of any other nation.

In foreign lands the modernized dwelling is found only in the better sections of the larger cities.

In America, even in remote rural districts, you find the piano, the vacuum cleaner, washing machines, up-to-date heating systems, telephones and numberless electrical appliances.

There is a well-kept look about residence, store or out-buildings with an atmosphere of prosperity and content.

Did you ever stop to realize why this is so; how the condition was brought about?

It is largely due to advertising. And a big share of the credit belongs to newspaper advertising.

Stop and think how many of the foods you eat, the things you wear and other articles entering into your everyday life, you first heard of through newspaper advertisements.

You will then realize what a part they do play, or should play, in your daily life.

Read the advertisements, in the newspapers regularly and thoroughly, if you are not already doing so. They mean more to you than you can tell.

IT PAYS TO ADVERTISE

MCGARRY-WALKER TOUR, 64 CARS

Carried With Them Big Gas Tank,
Repair Cars, "Red Devils," Truck
With a Derrick

LEFT MINNEAPOLIS AT 9 A. M.

Stops Made at Monticello, St. Cloud,
Little Falls—Night Control
at Brainerd

The McGarry-Walker tour of the Minnesota State Automobile Association brought to Brainerd Friday evening about 6:30 o'clock for their night control, 64 cars and that included comprehensive equipment for repairs, etc., being a big gas tank on a Diamond-T truck, a repair truck equipped with derrick, several "Red Devils" for tire repairs and battery service.

A number of blowouts were recorded and the only accident being that of M. S. Alexander of Owatonna who broke the frame of his car when he hit a deep rut, at some point in the first half of the tour.

Officials Accompanying.
Prominent officials accompanying the tour, said to be the biggest run out of Minneapolis, included, G. Roy Hill, secretary of the State Automobile association; Louis Bolser, chairman of the state tourist committee; Bohn E. Fawkes, chairman Minneapolis tourist committee; E. T. Winship, president of the State Automobile association; Ivan Coppe, secretary of the 10,000 Lakes association; Mayor J. E. Meyers of Minneapolis; Hennepin County Commissioners Barney Anderson, C. E. Cook and Harry Montgomery.

Schedule
Roads were good and weather excellent. Minneapolis was left at 9 o'clock in the morning and at Monticello an hour stop was made, at St. Cloud two hours, Little Falls where Mayor Bergheim addressed and responses were made at the court house square, half an hour.

Fine Record.
W. R. Stephens, checking car, said a remarkably fine record had been made.

Brainerd Reception
At Brainerd on Friday evening there were special moving pictures featuring John Smith, aged 117 years, and the Cass Lake pageant of the Northern Minnesota Development association and the recent pike fishing at Walker. Dr. Irving Badeaux sang and there was a monologue by Rev. Hans Wolner. The Brainerd City band played at Gregory park and for the dancing on the pavement.

Others of the tour party also took in the dancing at Lum park.
On arrival at Brainerd, after 130 miles touring, the majority sought bath tubs and shower baths as keeping position in a tour line miles long entailed picking up considerable dust enroute. The next thing was "eats" and restaurants and hotels were crowded, the Ransford, Ideal, West's Cafe, Garvey's, Trautman's, serving many. Rooms were found at the Ransford, Harrison, Ideal and private families also housed some.

Brainerd Greeters
Brainerd greeters turned out in quite a number, driving to Little Falls 3 o'clock Friday afternoon to meet the tourists there and escort them back to Brainerd. The tour party arrived in Little Falls after 4:30 o'clock and then swung out for Brainerd.

Leave Saturday Morning
The Walker people had pilots in Brainerd who picked up the party here and escorted them to Walker. The official leaving time from Brainerd was 8 in the morning. Some forty cars traveled in the first section, followed by others. During the morning hours many Minneapolis people who traveled "by themselves" arrived and had breakfast here and then continued on to Walker so that eventually probably 100 cars will be the complete total for the tour.

Cars Checked at Brainerd.
Cars in the tour included:
Pilot car, Carl Kemp, B. F. Fawkes and W. R. Stephens.
Pace-maker, G. Roy Hill and Louis Bolser.

E. T. Winship, Cadillac.
Frank S. Gold, Pullman.
H. H. Orme, Winton.
W. A. Lechren, Oldsmobile.
Scout car.
E. J. Seymour, Oakland.
Russell Grader, Cadillac.
Robert Simpson, Oakland.
N. Latourelle, Hupmobile.
I. C. Cuvelier, Chalmers.
M. Bruce Carpenter, Hudson.
Dr. George E. Benson, Cadillac.
E. H. Comstock, Dodge.
Geo. T. Freeman, Cadillac.
J. G. Heyn, Dodge.
P. H. Van Order, Studebaker.
M. T. Nagle, Cadillac.
A. J. Reddell, Buick.
W. R. Cooper, National.
W. Y. Dennis, Paige.
Edwin Crowley, Buick.
E. G. E. Reel, Ford.
D. T. Farnum, Stutz.
P. M. Vermaas, Moline-Knight.
W. B. Chamberlain, Franklin.
Frank Boutin, Pierce Arrow.
J. L. O'Donnell, Oldsmobile.
D. G. Hedderly, Jr., Buick.
Fred Bros., Paige.
Jas. E. Lee, Hudson.
W. P. Washburn, Reo.

J. C. Templeton, Dodge.
R. G. Rowland, Elgin.
L. H. Fawkes, Reo.
J. F. Gable, Oldsmobile.
Herman Bachman, Kissel.
Dr. C. A. Lapierre, Buick.
Dr. H. G. Blanchard, Buick.
W. V. Harrington, Roamer.
Geo. A. Rose, Buick.

JOHN G. THOMAS CALLED TO REWARD

Prominent Farmer of Oak Lawn
Township, Manager Some Years
of Elder Farm, Died

FUNERAL FROM FARM HOME

Under Odd Fellow Auspices Monday
Afternoon—Thomas Spent Some
Years in Alaska

John G. Thomas, a prominent farmer of Oak Lawn township, age 56, died of dropsy and heart trouble at his home Saturday morning. He leaves a wife and son Earl and daughter Pearl. He had been ailing since February, but only took to his bed a week ago.

He was born in Michigan and was married to Miss Julia Sullivan. They lived for a time in Brainerd, then went to Alaska in the mining rush of the early Dawson days and he was mining on Gold Run creek, then returned to Crow Wing county where he was manager of the James M. Elder farm 18 years and upon his death farmed for himself.

He was a member of the Odd Fellow lodge and they will have charge of the services Monday afternoon at 2 o'clock at the farm home in Oak Lawn township. Interment will be in Evergreen cemetery.

Mr. Thomas left six brothers and a sister. He was a kindly, charitable man, good to his family, his friends and all who associated with him. He will be sadly missed in the family circle. His staunch, sturdy character was an inspiration to all. The sympathy of the community is extended to the bereaved ones.

FORMER BRAINERD MAN

Eugene Klosterman, Who Passed
Away in Minneapolis, Formerly
Conducted City Hotel

Eugene Klosterman, single and aged 40, died of pneumonia in Minneapolis and the funeral was held Saturday at Brainerd, Rev. J. J. O'Mahoney officiating at the services held at McNamara's chapel. In the early days Mr. Klosterman and his mother conducted the City hotel which was then located on Front St.

NO TROUBLE SINCE

Mr. Ellison's Statement is Most Con-
vincing Evidence

When Mr. Ellison endorsed Doan's Kidney Pills he told of having received complete relief. Now Mr. Ellison tells how years have passed without any return of kidney trouble. Results that last are results that count. Brainerd people should gain by the experience of Chas. Ellison, 512 S. Quince St. He says: "My kidneys were disordered for several years and I seemed to gradually get worse. Nearly a year ago I was taken with awful pains in my back. I had to stop work and go to bed. Medicine patched me up somewhat and I got out in a few weeks but still had the old trouble and suffered severely. I began to take Doan's Kidney Pills and a few boxes put me in good shape. I could then work comfortably."

On November 5, 1917, Mr. Ellison said: "The cure Doan's Kidney Pills made for me some years ago is still permanent. I am glad to again recommend them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ellison had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Only That Difference.

As I was going shopping I met a famous little fellow, who spoke to me quite politely. In further conversation I inquired his name. "Oh," he answered with easy assurance, "I'm the same as my daddy's, only I'm not 'Mr.' on the end of it."—Chicago

SHEEP AND CATTLE FROM DROUGHT AREA

Initial Shipment of Sheep by Gunby
& Morgan, Montana, 9 Carloads,
Heading for Brainerd

CROW WING COUNTY NOTICED

Farm Bureau Office and Chamber of
Commerce, Cooperating in Se-
curing Stock for County

The sheep and cattle crusade from the drought stricken districts to the rich cutover pastures of Crow Wing county has started. The initial shipment of sheep by Gunby & Morgan consisting of nine carloads of sheep, with herders, dogs, tents and other necessary apparatus, left Bozeman, Montana last Thursday, and is heading for Brainerd.

This is only a beginning and it is expected that inside of a month Crow Wing county will be feeding 40,000 to 50,000 head of cattle and sheep for Montana ranchers. Many ranchers who have large herds or bands of cattle and sheep have been in communication with the farm bureau office and the Chamber of Commerce, who are cooperating in securing stock for this county, and in each case these ranchers have been given listings of land offered by the land owners.

This is a real agricultural development opportunity for Crow Wing county, by forcibly showing the country the rich pasture lands and fertile fields of the county and will show stockmen as well as farmers, that if this county can easily feed 50,000 to 100,000 head of stock in an emergency for some stricken district, that there is no reason why it could not feed them year after year. And if the land is fertile enough to raise wild grasses in such abundance, surely it is a paying proposition to clear, develop and use for intensive farming.

Both farmers and business men realize that here is an opportunity not to be neglected and are cooperating in the securing of this stock thereby helping the Montana stockmen and their own interests at the same time.

WHERE TO WORSHIP

SUNDAY, JULY 27, 1919

Bethlehem Lutheran

Sunday school at 10 o'clock. Services at 11 o'clock.—M. L. Hostager, pastor.

Norwegian-Danish Lutheran

English services at 10:30, sermon theme, "The Teaching of the Bible Concerning Divorce."—Rev. E. R. Rorem, pastor.

Zion Evangelical Church

Sunday school 9:45 a. m., divine service 11 a. m., Y. P. A. 7:15 p. m., preaching 8 p. m. All invited.—F. M. Ohms, pastor.

Bethlehem Evangelical

9:30 a. m., Sunday school; 10:30 a. m., morning services, which will be held in the English language. There will be no evening services.—J. H. Bunge, pastor.

Swedish Bethany Church

The Sunday school will hold their annual picnic at Armstrong's Point on South Long lake. Cars will be at the church at 8 o'clock to take the people to the picnic grounds. Everybody is invited to come and enjoy the day at the lake.

Swedish Baptist Church.

Morning worship 10:30, subject, "Signs and Tokens of God's Holy Spirit in the Church." Sunday school at 12 noon. Evening service at 7:30 (English), subject, "Ye Did Run Well; Who Did Hinder You?"—P. Alfred Peterson, pastor.

Peoples' Congregational

Sunday school at 10 a. m.; preaching service 11 a. m.; Christian Endeavor meeting, 6:45 p. m.; preaching service, 7:30 p. m. All are cordially invited to these services.

There will be no preaching services in the church during the month of August, as that is vacation month.—Rev. C. N. Sennett, pastor.

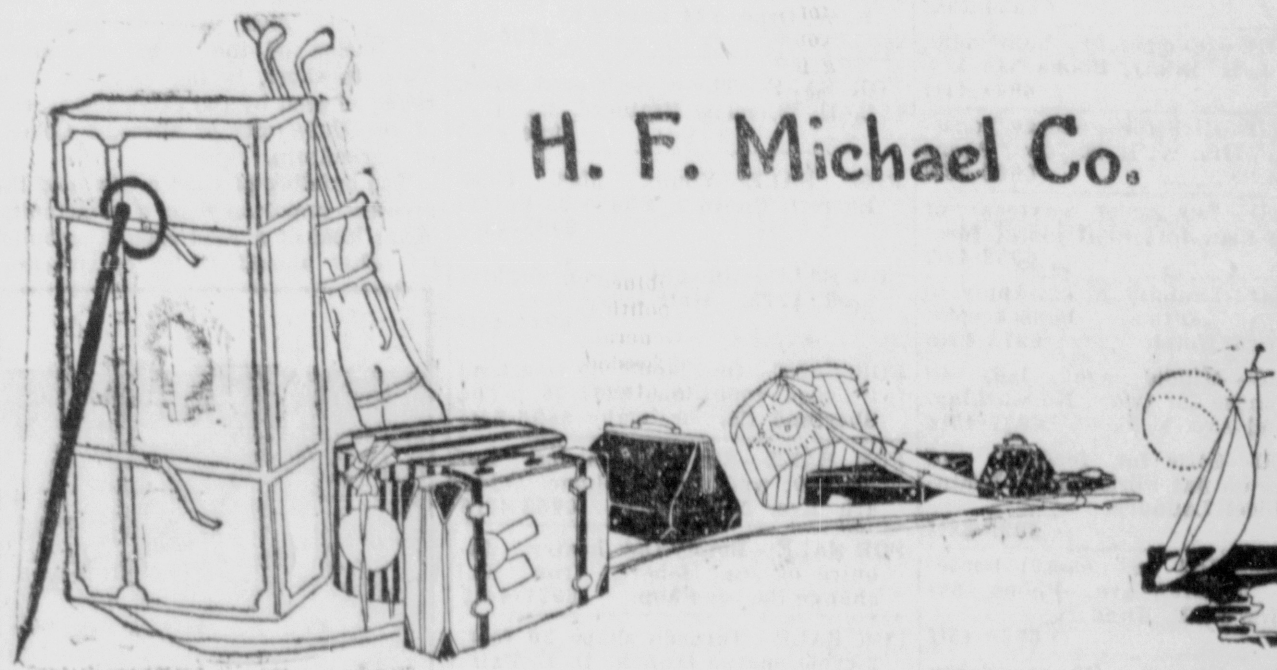

First Congregational

Morning worship 10:30, subject, "Carrying Too Much Baggage." Sunday school 12 noon. Evening service, union service in Gregory park. Preacher, Rev. C. B. Hilton, who was pastor of the First Baptist church about eight years ago. Leader, Rev. Fred Errington, pastor of the First Congregational church. Fred Errington, pastor.

Presbyterian Church

Morning service at 10:30 o'clock. The theme of the sermon will be, "The Words of My Youth." Sunday

Make your vacation trip
a pleasure with "Michael's"
luggage. It looks
better. It wears better.

Automobile Tourists

When in MINNEAPOLIS Stop at

Hotel Lincoln

Nicollet Ave. and Ninth Street

Opened Sept. 1, 1918

Especially convenient for auto parties as Nicollet Avenue is the leading road from all points, and has no car tracks. Within two squares of 5 large garages. Adjoining the city's largest stores.

Rooms at \$1.00 per day. With private toilet 25 cents extra; with private bath 50 cents extra. In addition there are suites of rooms with separate toilet, each room having connecting bath—an ideal arrangement and only found here.

Cafe in Connection—Hotel Lincoln guarantees an atmosphere of home refinement

Napoleon's Temper.

Defeat was so distasteful to Napoleon that, so it is recorded, when he found an opponent at chess getting the better of him he would with a quick movement sweep board and pieces off the table to the ground.

Electric Shotgun.

A patent has been granted for an electric shotgun in which sparks discharge cartridges that may be filled with an explosive gas or liquid as well as powder.

Lighter Than Cork.

Sunflower stalk pith, which is about ten times lighter than cork, is used in a life saving apparatus invented by a Russian.

Optimistic Thought.

He deservedly loses his own property who covets that of another.

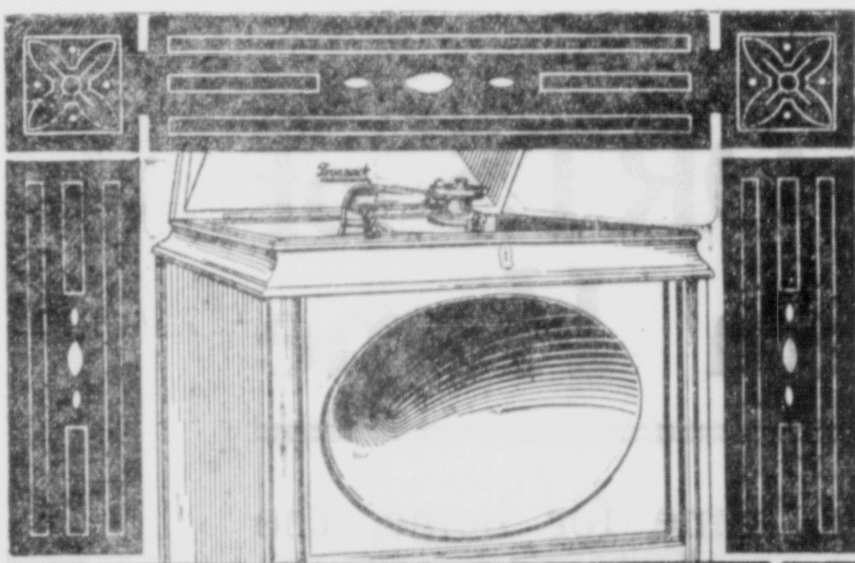

Ireland Still Medieval.

In Ireland we are still medieval, and think that how to live is more important than how to get a living. When I was a young man if I announced that I intended next morning at break of day to start on some enterprise of amusement, or it might be of high duty, the whole family would get up to see me off; but if it were on some matter of mere commercial gain, I would breakfast in the care of the servants. It was thus through the whole of Irish life.—John Butler Yeats.

Better Tone

**How The Brunswick
Attains It**

EVEN the most casual hearing of The Brunswick gives instant and conclusive evidence of its tone superiority. Your ear immediately detects the difference.

This betterment is due to the Brunswick Method of Reproduction, which includes two new ideas—the Ultona and the All-Wood Tone Amplifier.

The Ultona plays all records at their best, whatever make. Just a turn of the hand and the Ultona presents to each type the proper weight, diaphragm and needle according to its exact requirements.

Perfect reproduction is followed by perfect tone development through the new All-Wood Tone Amplifier. No metal is used in its construction.

Investigate The Brunswick before you buy; a visit to our shop will give you new standards by which to judge.
